Small Fry NORM
Project

Dear Sir:

Per Utah Division of Radiation Control (UDRC) project approval letter of 8/20/93 from Sinclair to Shoemaker, and a 4/18/94 telecon between you and Molycorp's Bill Renison; please be advised that Molycorp, with this letter is notifying the State of Utah that it would like to commence with the permanent storage of its Dry Valley NORM tails in the Small Fry mine. Assuming this letter is the 15 day notice prior to project start-up as requested in the above mentioned UDRC letter; Molycorp anticipates starting the project on May 2, 1994 with a project completion date of August 12, 1994. Reams Construction Co. of Naturita, CO has been contracted to perform the work for Molycorp.

If you should have any questions concerning this project, please phone me at (505) 586-0212, Ext. 3001.

Sincerely yours,
